

Organization Section

NEW MEMBERS

The following were elected to the Professional Section as of September 1984:

John M. F. Adam, MD, Ujung Pandong, Indonesia

Jennie J. Alexander, RN, MS, Memphis, TN
Denise Z. Anderson, MD, Anchorage, AK
Gabriel Antony, MD, FRACP, Kensington, Australia

George E. Bacon, MD, Ann Arbor, MI
Marla Bernbaum, MD, St. Louis, MO
Linda J. Brady, PhD, Pullman, WA

Eric P. Brass, MD, PhD, Denver, CO
David Bromwell, Hamilton Square, NJ
Hilary Brynildsen, MD, Denville, NJ
Gerardo Bueso, MD, Houston, TX
Ann E. Chapman, PhD, Dallas, TX
Marcos Chertman, MD, Miami, FL

A. Jay Cohen, MD, Cordova, TN
David D. Dulaney, MD, Paradise Valley, AZ
Lester A. Epstein, MD, Huntington Beach, CA
Robert M. Evans, MD, Jackson, MS
Joan M. Faser, Minot, ND
Vladimir Feingold, PhD, Cherrybrook, NSW, Australia

Susan Fisher, PhD, San Francisco, CA
Anda Lou Gouge, Union, KY

Bette C. Graham, RN, St. Petersburg, FL
Nicolene F. Gregory, RN, BSN, Webster, NY
Jasper C. Hallford, MD, Guymon, OK
Ronald J. Harris, MD, Kingston, PA
William W. Hay, Jr, MD, Denver, CO
Avraham T. Herskovits, MD, Yohanan, Israel
Carol B. Holleman, BSN, ANP, Corona del Mar, CA

Steven B. Holoander, DPM, Tucson, AZ
Martin I. Horowitz, PhD, Valhalla, NY
M. Husain Jawadi, MD, Wichita, KS
Herbert M. Juarbe, MD, Silver Spring, MD
Angelo A. Licata, MD, PhD, Shaker Heights, OH

Kent J. Lyon, MD, Oakland, CA
Edward E. McKee, PhD, North Chicago, IL
James H. Meyer, MD, Sepulveda, CA
Lloyd A. Miller, BS, MS, St. Petersburg, FL
Catherine L. O'Malley, MD, Pensacola, FL
David A. Otto, PhD, New Brunswick, NJ
Douglas S. Perry, Somerville, NJ
Mary K. Peryam, RD, MS, Broadus, MT
John Quilley, PhD, Valhalla, NY
Marjorie R. Rachide, MSN, Kinston, NC
Marc S. Rendell, MD, Tulsa, OK
Orville M. Rippy, MD, Stillwater, OK
Stephen G. Rosen, MD, Ann Arbor, MI

Libbie J. Russo, MD, Kansas City, MO
Mark H. Scoffield, DPM, Phoenix, AZ
Robert D. Siwicki, DPM, Fort Walton Beach, FL
Robert H. Spanheimer, MD, Atlanta, GA
Harold W. States, MD, Olathe, KS
Mary C. Stevens, RD, Des Moines, IA
William S. Tiffany, Oakwood, VA
Hugh D. Tildesley, MD, CM, FRCP(C)
Vancouver, British Columbia, Canada
Barry A. Toubie, MD, Canada
Manfred A. Von Fricken, MD, Fairfax, VA
Nathan Wasserstrum, MD, PhD, Los Angeles, CA
Brenda M. Wong, RN, Long Beach, CA
Stanley K. Wong, PhD, Pomona, CA

NOMINATIONS FOR LILLY AWARD DUE DECEMBER 15, 1984

The 1985 Lilly Award will be given at the forty-fifth Annual Meeting of the American Diabetes Association. The following stipulations govern the contest for this annual award, which is supported by Eli Lilly and Company and consists of \$2,000 and a medal.

PURPOSE: To recognize demonstrated research in the field of diabetes, taking into consideration independence of thought and originality.

ELIGIBILITY: Any investigator in an appropriate field of work closely related to diabetes who is less than forty years of age on January 1, 1985. The research will not necessarily be judged in comparison with the work of more mature and experienced workers. The candidate should be a resident of the United States or Canada.

NOMINATION: Nominations for the award will be solicited from members of the American Diabetes Association. Such nominations will be requested by repeated notices to be published in *Diabetes* and *Diabetes Care*. Nominations must be received prior to December 15, 1984. The nominations should be accompanied by full information concerning the nominee's personality, training, and research work. Fifteen copies of each item should be submitted. No member may send in more than one nomination. The nominee should be actively engaged at that time in the line of research for which the award is to be made. Nominations should be addressed to the Committee on Research, American Diabetes Association, Inc., 2 Park Avenue, New York, New York 10016.

AWARD: In addition to the monetary award and medal, travel expenses will be given to make it

possible for the recipient to receive the award in person at the Annual Meeting.

ANNOUNCEMENT: The name of the winner will be announced in *Diabetes* and *Diabetes Care*. The winner will be invited to present a paper on his or her work at the Annual Meeting's Scientific Sessions.

ADA RESEARCH AND DEVELOPMENT AWARD

Applications for Research and Development Awards for the academic years 1985-86 and 1986-87 are due *December 1, 1984*. The following policies regarding this award have been established by the Committee on Research.

ELIGIBILITY: Applicants must be members of university-affiliated institutions within the United States or U.S. possessions, and be a U.S. citizen or have permanent resident status, have an M.D. or Ph.D. degree, or in the case of other health professions, an appropriate advanced degree, have at the time of the award a minimum of two, and preferably no more than five years of postdoctoral research experience with relevant diabetes-related accomplishments and publications (time spent in residency training is not considered equivalent to research experience); agree to devote at least 80 percent of time and effort to their research project during the period of the award, and be a member or agree to become a member of the National Professional Section of the American Diabetes Association if funded.

STIPEND: Support is for a period of two years and is non-renewable. Salary stipend is \$25,000 per year plus the customary fringe benefits of the sponsoring institution for which the recipient of the award qualifies. The institution may supplement the salary to the level appropriate to the institution. Research grant support will be \$15,000 in each of the two years. These funds are intended to defray the support each year of a technician and/or for supplies, with travel for the recipient restricted to a maximum of \$1,000 and equipment to a maximum of \$1,000. A recipient will *not* be eligible to receive a separate American Diabetes Association Feasibility Grant during the term of the Development Award.

TERM: The award will be made for two academic years, from July 1 to June 30, but the funding of the second year will be approved by the Committee on Research only on receipt of a report satisfactory to them of the recipient's research activities and progress.

APPLICATION FORMS: Descriptive outlines and ap-

plication forms may be obtained from the Contracts and Grants office of your institution or from Lauren Smith, American Diabetes Association, Inc., 2 Park Avenue, New York, New York 10016.

ADA FEASIBILITY GRANT PROGRAM

Applications for Feasibility Grants from the American Diabetes Association are due *February 1, 1985* for funding beginning August 1, 1985. Applications for two years of support for amounts up to \$25,000 per year will be considered. Funding for the second year will be provided only upon receipt of a report satisfactory to the Committee on Research of the recipient's research activities and progress. Grants are limited to institutions within the United States and U.S. possessions. These grants carry no commitment for overhead costs or tuition. The funds may not be used for training stipends, postdoctoral fellowships, professional salaries, or other nontechnical salaries. Otherwise, the funds are unencumbered other than that they are to be used in research activities related to diabetes mellitus for the project described in the year of the award. The funds may be used for equipment and/or supplies and/or salary for technical assistance. Funds up to \$1,000 may also be used for travel to diabetes-related scientific meetings.

The purpose of this program is to assist investigators who want to test the feasibility of diabetes-related new and imaginative ideas in order to obtain preliminary data upon which a subsequent grant application could be based and submitted to NIH or other funding agencies. The program is intended primarily for new investigators without prior NIH or other significant support, for established investigators in the field of diabetes who are proposing projects which constitute a major departure from their ongoing research, or for established investigators in other fields who are proposing projects in which they will transfer their special expertise to diabetes-related research. Investigators who have previously received pilot and feasibility money may not reapply for such funding in the same area of work.

Descriptive outlines and application forms may be obtained from the Contracts and Grants office of your institution or from Lauren Smith, American Diabetes Association, Inc., 2 Park Avenue, New York, New York 10016.

LIONS CLUBS INTERNATIONAL RESEARCH PROGRAM

The American Diabetes Association has again been selected to administer the Lions Clubs International Research Program for 1984. This program funds Research Grants in the United States and throughout the world. Grants are restricted to research related to diabetic retinopathy and may be in the form of Pilot and Feasibility Grants, Research and Development Awards, and Fellowships. Deadline for applications is December 21,

1984. For applications, contact the American Diabetes Association, Inc., 2 Park Avenue, New York, New York 10016. ATTENTION: Lions Clubs International Research Program.

DIABETES MANAGEMENT AND RESEARCH UPDATE

The New York State Affiliate, Inc., of the American Diabetes Association is planning a Teaching Day focusing on management of diabetes mellitus. The program will be held from 8:30 a.m. to 4:00 p.m. at the Holiday Inn Arena in Binghamton, New York on November 14, 1984. For further information contact John S. Coombs, Executive Director, New York State Affiliate, Inc., American Diabetes Association, Hotel Syracuse, Suite 1137, P.O. Box 1037, Syracuse, New York 13202. Tel: (315) 472-9111.

CEP PROGRAM PLANNED BY PHILADELPHIA AFFILIATE

"The Diagnosis and Treatment of Type II Diabetes," a Clinical Education Program sponsored by the Greater Philadelphia Affiliate, Inc., of the American Diabetes Association, will be held on December 5, 1984, at the Ramada Downingtown Inn in Downingtown, Pennsylvania. Douglas Greene, M.D., Harry Gottlieb, M.D., F.A.C.P., and Alan Lewis, M.D., will be the featured speakers. There will be no charge for participation in this Clinical Education Program and the luncheon afterward. This program is geared to the physician in family practice, general practice, or internal medicine. Registration will be held from 8:30 to 9:00 a.m. To register for the symposium call (215) 627-7718.

12th IDF CONGRESS

The 12th Congress of the International Diabetes Federation will be held in Madrid, Spain on September 23-28, 1985. The Congress will be held at the Palacio de Exposiciones y Congresos, Paseo de la Castellana, 99, Madrid, Spain.

The program will include Update Lectures, Memorial Lectures, Workshops, Symposia, Free Communications, and Poster Sessions with more than 50 main topics on basic and clinical diabetes.

Also, as an essential part of the program, 2½ days will be spent on diabetes education and 2½ days on comprehensive patient care, mainly addressed to non-physicians and diabetic patients. These sessions will run parallel to the basic and clinical diabetes programs.

The deadline for abstract reception at the Secretariat is January 15, 1985. The address of the Secretariat is as follows: 12th Congress of the International Diabetes Federation, % Andres Mel-lado, 33 1° A Madrid 15, Spain. Tel: 449 04 30 and 279 04 95. Telex: 22040 NSPA.

MTS Travel has been appointed by the American Diabetes Association as the official agent for North American travel to the Congress. MTS has blocked airline seats, hotel rooms, and sightseeing tours for ADA members.

For more information and to complete your specific travel plans, contact MTS Travel at one of the following regional offices:

Eastern and central time zones: 102 E. Main Street, Ephrata, Pennsylvania 17522. Tel: (outside Pennsylvania) 800-233-0157; (inside Pennsylvania) 717-733-4131.

Southwestern states: 937 W. Foothill Blvd., Claremont, California 91711. Tel: (outside California) 800-854-7979; (inside California) 800-472-4235.

Northwestern states: 1222 N. 185th Street, Seattle, Washington 98133. Tel: (outside Washington) 800-554-5011; (inside Washington) 800-772-7010.

POSTGRADUATE COURSE IN DIABETOLOGY

The International Diabetes Federation and the Turkish Diabetes Association will sponsor a Postgraduate Course in Diabetology to be held in Izmir, Turkey on May 22-26, 1985. Topics to be discussed include genetic factors and etiology of diabetes and clinical aspects of diabetes. For further information write to Türk Diabet Cemiyeti, IDF and TDC Postgraduate Course in Diabetology, Harbiye, Meyva Sokak No. 10, Istanbul, Turkey.

SECOND INTERNATIONAL DIABETES CONFERENCE

The Second International Diabetes Conference, focusing on vascular and neurologic complications of diabetes mellitus, will be held in Florence, Italy on November 8-9, 1985. The proceedings of the conference will be published by S. Karger (Basel). Manuscripts of short communications (length, 4 double-spaced typewritten pages; submit original plus 5 copies) should be sent along with registration fee (US\$ 100) to the Scientific Secretariat before July 10, 1985 by air mail—special delivery. For further information contact Prof. Gian Michel Molinatti, c/o Scientific Secretariat, Second International Diabetes Conference, Boehringer-Biochemia-Robin, Via S. Uguzzone 5, 20126 Milano, Italy.

ADA 1985 ABSTRACT DEADLINE

The abstract deadline for the ADA's 45th Annual Scientific Sessions Meeting is *January 21, 1985*. Abstract forms will be inserted in the September/October issue of *Diabetes Care* and the October issue of *Diabetes*. Abstract forms may also be obtained from Sharon Alleyne, American Diabetes Association, Inc., 2 Park Avenue, New York, New York 10016.

ADA DATES TO REMEMBER

32nd Postgraduate Course: January 14-16, 1985, The Fairmont Hotel, New Orleans, Louisiana.

45th Annual Meeting: June 13-18, 1985 (Scientific Sessions, June 16-18), Baltimore Convention Center, Baltimore, Maryland.
