Brenda Montgomery, RN, MSHS, CDE
SECRETARY/TREASURER
Umesh Verma
INTERIM CHIEF EXECUTIVE OFFICER
Martha Parry Clark
CHIEF SCIENTIFIC, MEDICAL & MISSION OFFICER
William T. Cefalu, MD

The mission of the American Diabetes Association is to prevent and cure diabetes and to improve the lives of all people affected by diabetes.
Mission Statement for *Diabetes*

*Diabetes* publishes original research about the physiology and pathophysiology of diabetes mellitus. Submitted manuscripts can report any aspect of laboratory, animal, or human research. Emphasis is on investigative reports focusing on areas such as the pathogenesis of diabetes and its complications, normal and pathological pancreatic islet function and intermediary metabolism, pharmacological mechanisms of drug and hormone action, and biochemical and molecular aspects of normal and abnormal biological processes. Studies in the areas of diabetes education or the application of accepted therapeutic and diagnostic approaches to patients with diabetes are not published. More information about the journal can be found online at diabetes.diabetesjournals.org.
